01 PREFACE

The **Government of India** had decided that to measure and monitor India's performance on various social, economic and other parameters through internationally recognized **Global Indices**.

The goal of this exercise are to use these Indices as tools for self-improvements and bring about reforms in the policies and processes of Government agencies and bring about reforms in the policies and processes of Government agencies and financial institutions while creating a conducive ecosystem for foreign and domestic investment flow.

Goals

- Driving reforms at the National and State level by ranking of States
- Promoting cooperative and competitive federalism
- Enhancing citizen service delivery, ease of living and ease of doing business

About the dashboard:

The dashboard is created to support the Government's decision to leverage the monitoring mechanism of select global indices to drive reforms and growth. The dashboard allows for monitoring of the parameters as per official data as well as the data source used by the publishing agency. The dashboard also allows for monitoring of performance of states and it also inculcates healthy competition among States/UTs through their scoring and ranking on these Indices and Reform Actions.

02 OBJECTIVE

Objective of this presentation is to explain the Navigation of Visualisation of GI Dashboard:

- To view Global and India Indices in Graph/Tabular view
- View Index scores and ranks of India Globally, View Country wise Scores
- View State wise Index Values in Graph/Tabular view
- Download values in PDF, Image or Excel
- View India Index, State-wise, Scores and Ranks
- View Reform Actions for specific year
- View Reform actions at Ministry level /State Level
- View Reform Actions by Ownership

ABOUT THE GIRG DASHBOARD

The dashboard is created to support the Government's decision to leverage the monitoring mechanism of select global indices to drive reforms and growth. The dashboard allows for monitoring of the parameters as per official data as well as the data source used by the publishing agency. The dashboard also allows for monitoring of performance of states and it also inculcates healthy competition among States/UTs through their scoring and ranking on these Indices and Reform Actions.
